

# 12<sup>th</sup> Annual Maritime Career Day

Thursday, May 6th, 2010

8:30am – 3:00pm

You are invited to join us in introducing local secondary students and adults to job and volunteer opportunities in the maritime community. This is a chance for your organization to promote the industry positively and shed light on the number and variety of opportunities available. Inform the community about your role in Puget Sound!

The Maritime Event Center, formerly the Odyssey Maritime Discovery Center, is organizing Career Day 2010 to bring together representatives from maritime, trade, fisheries, government, environmental, research, and educational organizations to present information, demonstrations, hands-on activities, and potential career and training opportunities to the greater community.

You and your company or organization may participate in a number of ways, including setting up a booth, providing a vessel for vessel tours, speaking in our speaker series, providing a demonstration, serving as a docent, spreading the word, or being a sponsor. Sponsorship helps us to provide this opportunity for the community at no charge.
